INTRODUCTION

The Illinois Register is the official state document for publishing public notice of rulemaking activity by State governmental agencies. The table of contents is arranged categorically by rulemaking activity and alphabetically by agency within each category. Rulemaking activity consists of proposed or adopted new rules or amendments to or repealers of existing rules, including those by emergency or peremptory action.

The *Register* also contains Executive Orders and Proclamations issued by the Governor, notices of public information required by State statute, and activities (meeting agendas, Statements of Objection or Recommendation, etc.) of the Joint Committee on Administrative Rules (JCAR), a legislative oversight committee which monitors the rulemaking activities of State agencies. In addition, the *Register* contains a Cumulative Index listing alphabetically by agency the Parts (sets of rules) on which rulemaking activity has occurred in the current *Register* volume and a Sections Affected Index listing, by Title of the *Illinois Administrative Code*, each Section (including supplementary material) of a Part on which rulemaking activity has occurred in the current volume. Both indices are action coded and are designed to aid the public in monitoring rules.

The *Register* will serve as the update to the *Illinois Administrative Code*, a compilation of the rules of State agencies. The most recent edition of the *Code* along with the *Register* comprise the most current accounting of the State agencies' rules.

The *Illinois Register* is the property of the State of Illinois, granted by the authority of the Illinois Administrative Procedure Act (Ill. Rev. Stat. 1991, ch. 127, pars. 1001 et seq., as amended).

- 5) A Complete Description of the Subjects and Issues Involved:

Section 302.180. The Department has been exploring methods to facilitate the recruitment of highly qualified individuals into State service. This proposed amendment would achieve this purpose by the use of training programs. Qualified individuals who participate in these programs could be promoted into certain targeted State positions assuming they have successfully completed a training program approved by the Department and have passed any competitive promotional examination requirements.

Section 302.610. This proposal will conform the Personnel Rules to similar provisions which have been adopted by other jurisdictions. For example, rules adopted by the Secretary of State pursuant to the Secretary of State's Merit Employment Code allow for reinstatement of employees formerly certified under jurisdictions other than that the Secretary of State Merit Code. This language also is consistent with other provisions in the rules which allow for movement of employees among merit systems (e.g., merit system transfers).

- 6) Will this proposed amendment replace an emergency rule currently in effect? No.
 - 7) Does this rulemaking contain an automatic repeal date? No.
 - 8) Does this proposed amendment contain incorporations by reference? No.
 - 9) Are there any other proposed amendments pending on this Part? Yes.

SOURCE: Adopted at _____ Ill. Reg. _____, effective _____.

SUBPART A: GENERAL PROVISIONS

Section 254.101 Purpose

This part establishes uniform procedures for the reporting of air pollution emissions data from sources of regulated air pollutants, including procedures for the reporting of emissions of Volatile Organic Material (VOM) and Nitrogen Oxides (NOx) from sources located in ozone nonattainment areas. These reports will be used to update the Agency's emissions inventory and to enable the State to comply with the inventory and reporting requirements of Section 182(a) of the Clean Air Act (42 U.S.C. §7401 et seq.). The procedures presented in this Part implement the provisions of 35 Ill. Adm. Code 201.302(a) and 201.302(b).

Section 254.102 Applicability

- a) Subpart B of this Part applies to the owner or operator of any source required to have an operating permit in accordance with 35 Ill. Adm. Code 201 and that is permitted to emit 25 tons per year or more of any combination of regulated air pollutants. Subpart B also applies to the owner or operator of any source required to have an operating permit in accordance with Section 39.5 of the Environmental Protection Act (Ill. Rev. Stat., ch. 111 1/2 par. 39.5, as amended by P.A. 87-1213, effective September 26, 1992), the State's approved permit program established pursuant to Title V of the Clean Air Act (42 U.S.C. §7401 et seq.) (CAAPP).
- b) Subpart C of this Part applies to the owner or operator of any source that has a potential to emit 25 tons per year or more of either VOM or NOx for all emission units at that source and which is located in any ozone nonattainment area within the State of Illinois.
- c) Subpart D of this Part applies to the owner or operator of any source of regulated air pollutants required to have an operating permit in

ENVIRONMENTAL PROTECTION AGENCY

NOTICE OF PROPOSED RULES

accordance with 35 Ill. Adm. Code 201 and which is not subject to subsections (a) or (b) above.

Section 254.103 Definitions

Except as otherwise defined in this Part, definitions of terms used in this Part shall be those used in the Environmental Protection Act (Ill. Rev. Stat. 1991, ch. 111 1/2, par. 1001 et seq.) and in 35 Ill. Adm. Code: Subtitle B.

Section 254.104 Actual Emissions

"Actual emissions" means the rate of emission of a regulated air pollutant from a source or an emissions unit for the calendar year, seasonal period, day or other period of time as specified based on the best information available to the owner or operator of that emissions unit. Actual emission rates include startup, shutdown or malfunction emissions. The calculation of actual emissions must follow an "emission determination method." Where, for any reason, a source has measured any of its emissions, the source must report the measured total as its "actual emissions" for those pollutants rather than using an estimation method to derive the total for that period of time during which the measurements were taken.

Section 254.105 Annual Process Rate

"Annual process rate" means the actual or estimated annual fuel operating rate, process operating rate, or waste operating rate.

Section 254.106 Certifying Individual

"Certifying individual" means the individual responsible for the certification of the accuracy of the Annual Emissions Report and who will take legal responsibility for the information verified or reported in the Annual Emissions Report.

Section 254.107 Emission Determination Method

"Emission determination method" means the method generally accepted and used by those persons engaged in the field of air pollution control to derive actual emissions, whether measured or estimated.

Section 254.108 Emissions Summary

"Emissions Summary" means the portion of the Source Inventory Report listing the data fields for the information required in the minimum Annual Emissions Report prescribed at Section 254.130 of this Part.

Section 254.109 Inventory Edit Summary

"Inventory Edit Summary" means the report that the Agency provides to the

ENVIRONMENTAL PROTECTION AGENCY

NOTICE OF PROPOSED RULES

source that lists data fields from the Source Inventory Report that the Agency has reason to believe are incorrect, incomplete or outdated.

Section 254.110 Peak Ozone Season

"Peak ozone season" means the months of June, July and August.

Section 254.111 Source Inventory Report

"Source Inventory Report" means the report that the Agency provides to the source that lists data fields for the information required in the Annual Emissions Report and contains the information, if any, that previously has been reported to the Agency for those data fields.

Section 254.112 Typical Ozone Season Day

"Typical ozone season day" means any day, Monday through Friday, representative of source operations during the peak ozone season.

Section 254.130 Minimum Contents of Annual Emissions Report

As a minimum, each Annual Emissions Report filed pursuant to 35 Ill. Adm. Code 254 shall contain:

a) Source identification information:

- 1) Source name, physical location and mailing address;
- 2) SIC code;
- 3) Source contact;
- 4) Source contact telephone number.

b) Source-wide totals of actual emissions for all regulated air pollutants emitted by the source.

c) The following certification statement: "All Annual Emissions Report data verified, modified or provided on behalf of the company named above, whether submitted electronically or in writing, represents the best available information and is true and accurate to the best of my knowledge." The certification statement shall be accompanied by the full name, title, actual signature, date of signature, and a telephone number of the certifying individual.

Section 254.131 Methods of Filing Annual Emissions Report

Each owner or operator subject to a reporting requirement pursuant to 35 Ill. Adm. Code 254 must file the minimum Annual Emissions Report pursuant to

ENVIRONMENTAL PROTECTION AGENCY

NOTICE OF PROPOSED RULES

Section 254.130 of this Part in paper form. This will satisfy the requirement for the information listed in the Emissions Summary portion of the Source Inventory Report. When revisions or additions have been made to the information in the remainder of the Source Inventory Report, that information may be filed in paper form or electronically.

Section 254.132 Failure to File a Complete Report

- a) Failure to file a complete Annual Emissions Report by the applicable deadlines prescribed in Subparts B, C and D of this Part shall be a violation of 35 Ill. Adm. Code 201.302(a).
- b) Failure to receive the Source Inventory Report from the Agency pursuant to Subparts B, C or D of this Part does not relieve an owner or operator from the obligation to file a complete Annual Emissions Report. Any owner or operator who does not receive the Source Inventory Report at least sixty (60) days before the applicable reporting deadline may contact the Agency to request the Source Inventory Report.

Section 254.133 Voluntary Submittal of Data

In addition to any information required to be submitted in the Annual Emissions Report, the owner or operator may submit any data on a voluntary basis. The Agency may not require the source to perform any monitoring which is not otherwise required by applicable rule or a permit condition.

Section 254.134 Retention of Records

The Agency may require information from the owner or operator to substantiate the contents of the Annual Emissions Report filed. All records and calculations upon which the verified and reported data are based must be retained by the source for a minimum of three (3) years following the filing of a complete report. A request for such information may be made up to three (3) years following the filing of a complete report. The source shall provide the requested information in a format acceptable to the Agency within 30 days of the receipt of the request. Nothing in this Section shall be interpreted to impose any additional monitoring which is not otherwise required by applicable rules or a permit condition.

Section 254.135 Reporting of Errors

If, after submitting any Annual Emissions Report required by Part 254, the owner or operator discovers an error in the data reported, the owner or operator shall notify the Agency of the error in writing and shall provide the Agency with the correct data. The notification and correction shall be conveyed to the Agency within 30 days of the owner's or operator's discovery of the error. The corrected data shall be certified in accordance with Section 254.130(c) of this Part.

NOTICE OF PROPOSED RULES

Section 254.136 Confidentiality and Trade Secret Protection

Information reported in any Annual Emissions Report and claimed to be confidential or a trade secret shall be subject to the procedures for submitting, identifying and protecting such information that are set forth in Ill. Rev. Stat. 1991, ch. 111 1/2, par. 1007; 2 Ill. Adm. Code 1826 and 1827; and 35 Ill. Adm. Code 120.

SUBPART B: REPORTING REQUIREMENTS FOR LARGE SOURCES

The Source Inventory Report shall contain all data fields for the information required under Sections 254.130 and 254.203 of this Part. Where the information requested in the data fields has previously been provided to the Agency, the Agency shall provide this data on the Source Inventory Report for verification or modification by the owner or operator. Where the required information has not been previously provided by the owner or operator and is applicable to the activities, equipment or emissions of the source, it must be provided by the owner or operator. The information on emissions shall be based on the best information available to the owner or operator of that source or emission unit.

Amendment
- 4) Statutory Authority: Section 12-13 of the Illinois Public Aid Code (Ill. Rev. Stat. 1991, ch. 23, pars. 12-13)
- 5) Complete Description of the Subjects and Issues Involved: These proposed amendments modify terminology which is used in the calculation of reimbursement levels for developmental training (DT) services. These changes are necessary according to a finding of the 1990/1991 Financial and Compliance Audit for the period ending June 30, 1991, which states that the Department's DT rate calculations for FY'91 were not in compliance with Section 140.648.

Section 140.648 indicates that one of the rate calculation factors is a divisor of 365 days. However, the Department uses a divisor of 240 days, since DT program services are provided on approximately 240 days per year. Therefore, changes are being made to eliminate the reference to 365 days from the rule. The new reference, "annual client days," means the actual days of DT services.

This discrepancy between actual rule language and the rate calculation methodology used by the Department, has not resulted in any reimbursement shortfall for providers.

Additional changes are being made in Section 140.648 to correct grammatical and typographical errors.

Implementation of these proposed amendments will not result in any additional expenditures by the Department.
- 6) Will these proposed amendments replace emergency amendments currently in effect? No
- 7) Does this rulemaking contain an automatic repeal date? No
- 8) Do these proposed amendments contain incorporations by reference? No
- 9) Are there any other proposed amendments pending on this Part? Yes

Section 140.648 Determination of the Amount of Reimbursement for Developmental Training (DT) Programs

- a) A DT program which is certified by the Department of Mental Health and Developmental Disabilities (DMHDD) shall be reimbursed for

DEPARTMENT OF PUBLIC AID

Section 140.648(a) (continued)

active treatment services delivered on or after January 1, 1990, to eligible participants.

- b) The total rate shall be comprised of a Program Component and an Agency Component. Reimbursement levels for the Program Component shall be derived from four determinants which, in combination, shall result in the total Program per diem amount. The four determinants will be reviewed and validated according to information provided in the most recent facility Inspection of Care (IOC) conducted by Department surveillance staff. Where dollar, wage or salary amounts are used, respective amounts shall be inflated to the fiscal year for which reimbursement shall be made.

- c) Program Component. The four determinants which result in the total Program Component per diem are:

- 1) Direct Services - DT agencies shall be in compliance with the Health Care Financing Administration's (HCFA) minimum average daily staffing standards (42 CFR 442.430 (1990)) relative to client population according to each individual's overall level of functioning. In order to meet and exceed the staffing standards set by HCFA and to assure adequate reimbursement for the delivery of active treatment services, the Department shall base reimbursement for direct service staff at the following per shift ratios:

Overall Level of Functioning FTE*Staff:Client Ratio

Mild	1:10
Moderate	1:8
Severe-Profound	1:5

*FTE = Full Time Equivalent

- A) Determination of levels of functioning of clients with mental retardation and related conditions, in accordance with the definition of the American Association of Mental Retardation (mental retardation refers to significantly subaverage general intellectual functioning existing concurrently with deficits in adaptive behavior and manifested during the developmental period), shall include both:

- i) an assessment of intellectual functioning as measured

by a standardized, full scale, individual intelligence test such as the Stanford binet and WAIS-R. Such an assessment shall be administered by a psychologist who is registered in Illinois under the Illinois Psychological Act (Illinois Department of Professional regulation); and

- ii) an assessment of adaptive behaviors using a nationally standardized, Department approved assessment instrument, such as the Scales of Independent Behavior (SIB), or the Inventory For Client and Agency Planning (ICAP). Such an assessment instrument shall be utilized by at least one Qualified Mental Retardation Professional (QMRP) (Section 144.275 (b)(1) and 42 CFR 483.430 (1989)) to evaluate each client's functional skills and adaptive behaviors. The Scales of Independent Behavior and the Inventory for Client and Agency Planning are published by, and available from, DLM Teaching Resources, 1 DLM Park, Allen, Texas 75002 (1-800-527-4747). The 1986 edition is incorporated and no later amendments or editions are included.

- iii) The final determination of each client's overall level of functioning employs both the assessment of intellectual functioning and the assessment of adaptive behaviors, and will be made according to the criteria set forth in 89 Ill. Adm. Code 144.144 Table D and 89 Ill. Adm. Code 144.144 Table E.

- B) Reimbursement for direct services is calculated by: determining the number of clients within each level of mental retardation; dividing each number by the client component of the staff; client ratio; summing these quotients; multiplying the sum by the aide hourly wage factor and then by 2080 (52 weeks times 40 hours per week); them then multiply by 1.08 1.8 (vacation and sick time factor) to obtain a total annual direct service cost; and dividing this total by 365-days-and-then-by-the-number-of individuals the annual client days to obtain the amount for direct services per client per day. For the calculation method and an example, see 89 Ill. Adm. Code 144.275(a)(8) 144.275(a)(1)(C)(i).

- 2) Qualified Mental Retardation Professional - The supervisor of

active treatment services in the developmental training environmental is the QMRP. To determine the reimbursement amount for QMRP supervisory staff, assume that a full-time QMRP is required for every 30 individuals who are certified for ICF/MR services. Reimbursement for QMRP services is calculated as follows: the number of QMRPs shall be obtained by dividing the number of clients in the DT program by 30; the obtained number of QMRPs is multiplied by the hourly wage factor and then by 2080 (52 weeks times 40 hours per week); and then multiply by 1.08 (vacation and sick time factor); the product is divided by 365-and-then-by-the-number-of-individuals the annual client days.

- 3) Specialized Care - An amount shall be paid for clients who are in need of Specialized Care for Behavior Development Programs and/or Health and Sensory Disabilities. Complete descriptions of Specialized Care are found in 89 Ill. Adm. Code 144.125 and 144.150. Identification and validation of an individual's need for either or both categories of Specialized Care will be made during the annual IOC of the ICF/MR, SNF, or ICF where the individual resides.

- A) In each category of Specialized Care, there are three levels of services. The service level for each client meeting the criteria of more than one service level in a category of Specialized Care shall be determined according to the one level which shall result in the greatest reimbursement amount. Reimbursement for the three levels is determined on the basis of:

- i) Level 1 - .50 hours of Direct Service per service day.
- ii) Level II - 1.0 hours of Direct Service per service day.
- iii) Level III - 2.0 hours of Direct Service per service day. Reimbursement for clients who qualify for Level III in the category of Health and Sensory Disabilities is also made for 3.0 hours of licensed nurse time, at a ratio of 1:30 per service day.

- B) The reimbursement amount for Specialized Care is determined according to the calculation method in subsection (c)(1)(B).

- 4) Related Program Costs - These costs include program materials, equipment, consultants and similar items necessary for the individual's DT program. The amount paid per client per day is

Section 140.648(c)(4) (continued)

determined as follows: Add the amounts calculated for Direct Services, OMRP and Specialized care, and multiply this sum by the Developmental Training Regional Adjuster. The Regional Adjuster for DT programs in Health Service Areas (HSA) 6, 7 and 8 is 1.2; for all other HSAs, the Regional Adjuster is 1.0. The product is then multiplied by .10.

- 5) Total Program Component Per Diem - The total Program Component rate shall be the sum of the amounts for the four determinants (subsection (c)(1), (2), (3) and (4)).
- d) Agency Component. The Agency Component per diem will be a flat rate for costs of capital, support and transportation. Transportation is the conveyance of clients from the residential or long term care facility to the DT site, and is the responsibility of the provider of the DT program services. For clients who have special transportation needs, such as vehicles modified for wheel chairs and positioning equipment, an upward adjustment shall be made to the Agency Component per diem. Clients who require special transportation are identified according to their Specialized Care service levels, which are verified during the IOCs of their residences (facilities).

e) Total Per Diem Rate

- 1)A) The total per diem for each client is the sum of the Program Component subsection (c)(5) and the Agency Component subsection (d).
- 2)B) The per diem rate for a DT program, based on IOC information, is the mean of per diems for eligible and enrolled clients.

- f) The DT program may appeal for redetermination of the monthly rate established by the Department within 30 days after receiving notification of the rate by submitting an application to the IDPA. If a long term care or residential facility initiates such an appeal without the concurrence of the affected DT program, the appeal will not be honored. The application must identify the basis for the appeal and provide all necessary documentation to explain and justify the basis.

- g) The Department shall make an advance payment for DT services to a facility that contracts for such services with a certified DT Program. The amount of the advance payment shall be equal to the unadjusted reimbursement the facility would receive for two months of service for the number of recipients enrolled in DT. The facility

Section 140.648(g) (continued)

shall use this advance payment to provide advance payment to the DT program serving its recipients in accordance with Section 140.646(b). Facilities eligible to receive an advance payment must contract with a certified DT program which meets one of the following criteria:

- 1) The DT agency is a newly certified program, or
- 2) The DT agency experiences a significant increase in enrollment which results in:
 - A) a 20% client enrollment within one month, or
 - B) increased costs due to the need for a new setting.
- 3) The LTC or residential facility shall submit a written request for a two-month advance payment to the Bureau of Developmental Disability Services. The letter shall state the reason for the advance, the clients involved (include the Public Aid ID numbers), and the DT rate of each client. The Department shall begin recovering the payment three months after the advance is issued. The recoupment shall be made in six equal installments via credit applied to the following six months of service. In the event that the facility terminates its contract for DT services before the last month of recoupment, the Department shall recover the entire amount of the advance payment in the month of contract termination, from facility claims processed by the Department. If the amount of such claims is insufficient for recovery of the advance payment balance due, or if such claims have been processed by the Department's payment system prior to contract termination, the advance payment balance shall become immediately due upon contract termination, payable by check to the Illinois Department of Public Aid.

Excepted are those floodways which have been defined pursuant to 92 Ill. Adm. Code 708. The purpose of the program is to protect the rights, safety and welfare of private and public landowners.

Permits are required for any construction in the floodway of any stream serving a tributary area of 640 acres or more in an urban area, or, 6400 acres or more in a rural area. Exempted activities are listed in the Part. Application procedures and standards for permit issuance are also provided.

Additionally, this Part includes Statewide permits which are provided to reduce unnecessary paperwork for projects with minor floodway impacts. Finally, procedures for handling violations of this Part or the terms of a permit issued under this Part are provided.

- 6) Will this proposed rulemaking replace an emergency rule currently in effect? No
7) Does this rulemaking contain an automatic repeal date? No
8) Does this proposed rule contain incorporations by reference? No
9) Are there any other amendments pending on this Part? No

- 10) Statement of Statewide Policy Objectives: The rulemaking contains no requirements for local governments to initiate any specific actions. The only impact on local governments is the regulation of how specific projects proposed in the floodway of a river, lake or stream may be constructed. Compliance with the provisions of this rulemaking may increase the initial cost of proposed construction but will, overall,

AUTHORITY: Implementing and authorized by the "Rivers, Lakes and Streams Act" (Ill. Rev. Stat. 1991, ch. 19, pars. 70, 78 and 78.1).

SOURCE: Adopted at Ill. Reg. _____, effective _____.

Section 700.10 Purpose

- a) The purpose of this Part is to protect the rights, safety and welfare of private and public landowners by the regulation of floodway development. Construction activities which restrict a stream's capacity to carry flood flows may result in channel instability and increased flood damages to neighboring properties.
- b) This Part applies to all rivers, lakes and streams under the Department's jurisdiction except those in the counties of Cook, Will, DuPage, Kane, Lake and McHenry for which floodway limits have been defined.
- c) Compliance with this Part does not excuse an applicant from complying with the following rules of the Department:
- 1) Rules for Construction and Maintenance of Dams, 92 Ill. Adm. Code 702. This Part is applicable statewide.
 - 2) Floodway Construction in Northeastern Illinois, 92 Ill. Adm. Code 708. This Part applies to all defined floodways in the counties of Cook, Will, DuPage, Kane, Lake and McHenry.

DEPARTMENT OF TRANSPORTATION
NOTICE OF PROPOSED RULES

- 3) Regulation of Public Waters, 92 Ill. Adm. Code 704. This Part applies to the entire state geographically but is limited to only those lakes, rivers, streams and waterways that are considered public waters.

- d) Additionally, permits issued under this Part do not relieve the permittee of the responsibility of securing all other required authorizations.

Section 700.20 Definitions

As used in this Part, the words and terms listed shall have the meanings ascribed to them as follows:

"Bridge or Culvert Reconstruction" The total replacement of an existing bridge or culvert, including substructure and superstructure, on the existing road alignment or on an alignment within 100 feet upstream or downstream of the existing alignment in an urban area, or within 500 feet upstream or downstream of the existing alignment in a rural area.

"Construction" The placement or erection of any building or structure, any filling or excavation, the installation of any utility, or the storage of any materials. Construction includes channel modifications or enclosures, roads, bridges, culverts, levees, bank protection, walls, fences, and any other man-made activity which would modify the physical features of a floodway with respect to the storage and conveyance of flood waters. Construction does not include normal maintenance and repair activities or farming operations such as discing and plowing.

"Department" The Illinois Department of Transportation.

"Floodway" The channel of a river, lake or stream and that portion of the adjacent land area which is needed to safely store and convey flood waters. Where floodways have been delineated for regulatory purposes, the mapped lines show the floodway encroachment limits and will be used. For other areas, floodway limits will be estimated, using hydrologic and hydraulic calculations, to preserve adequate conveyance and storage so that stage increases for the 100-year frequency flood would not exceed 0.1 foot.

"Permittee" The person issued a permit pursuant to this Part.

"Rural Areas" All areas of the state not classified as urban areas.

"Urban Areas" Areas of the state where residential, commercial or industrial development currently exists or, based on land use plans or controls, is expected to occur within 10 years of the application date. In determining urban areas, the Department will consider the

DEPARTMENT OF TRANSPORTATION

NOTICE OF PROPOSED RULES

expertise of local officials, regional and local planning commissions, city and county planners, or private development planners, as well as all available mapping. Areas with only isolated or widely scattered buildings will not be classified as urban areas.

"Worst-case Analysis" The calculation of the maximum increases in flood heights, velocities and damages a project would cause due to conveyance and storage losses considering both the project alone and the combined effects of other existing construction and construction which could reasonably be anticipated to be proposed in the locality. Flood events up to and including the 100-year frequency flood shall be used in this analysis.

Section 700.30 Jurisdiction

- a) Construction in the floodway of any stream serving a tributary area of 640 acres or more in an urban area, or in the floodway of any stream serving a tributary area of 6,400 acres or more in a rural area, is subject to this Part and requires a permit from the Department.
- b) The following activities are exempt from this Part:
 - 1) Installation of field tile systems, tile outlet structures, and any water or sediment control construction activity in any floodway land (overbank) area which would not obstruct flood flows such as grade stabilization structures and waterways;
 - 2) Installation of irrigation equipment in any floodway land (overbank) area;
 - 3) Work on private lakes which would not impact the dam or traverse the lake such as the construction of boat docks, bank stabilization and maintenance dredging;
 - 4) Removal of brush, woody vegetation, trash or other debris;
 - 5) Routine maintenance and repair of existing structures;
 - 6) Maintenance and repair, to preserve design capacity and function, of artificially improved stream channels, drainage ditches, levees and pumping stations;
 - 7) Maintenance and repair of existing bridge and culvert structures, including dredging to restore the roadway opening to the original design cross section, and superstructure replacement which would not reduce the roadway opening (maintenance does not include increasing the height of an existing roadway);

DEPARTMENT OF TRANSPORTATION

NOTICE OF PROPOSED RULES

- 8) Widening of bridge decks;
- 9) Culvert extensions of up to 100% of the original length, but not exceeding 40 feet in length, provided the extension involves no change in alignment or reduction in size from the existing culvert;
- 10) Removal of bridge and culvert structures provided no materials would be placed in a way which would obstruct normal or flood flows; and
- 11) Installation of fences in rural areas.

Section 700.40 Permit Application

An applicant which desires a permit under this Part shall file with the Department an application consisting of a properly executed application form and all plans and information required to determine the effect of the construction on the carrying capacity of the stream. Application forms may be obtained from and should be submitted to:

Illinois Department of Transportation, Division of Water Resources
3215 Executive Park Drive, P.O. Box 19484
Springfield IL 62794-9484

All portions of the application shall be completed and all required attachments must be submitted before a determination of permissibility will be made.

Section 700.50 Notice to Interested Parties

When necessary or helpful to obtain information required for its evaluation, the Department will issue a notice of the application to potentially impacted parties allowing a period of 21 days for comment. This notice procedure will generally be limited to major projects such as levees and channel modifications.

Section 700.60 Departmental Standards

- a) Except as provided in Section 700.70, new construction which would result in an obstruction to flood flows or a reduction in flood storage capacity in a delineated floodway will not be permitted unless the application shows the criteria of Section 700.60(b) are met.
- b) Permits will be granted for construction which would not singularly or cumulatively result in flood damages or potential flood damages outside the project right-of-way due to increases in flood heights or velocities. Absent contrary evidence, this standard will be

DEPARTMENT OF TRANSPORTATION

NOTICE OF PROPOSED RULES

considered met if, for the worst-case analysis, the application shows that:

- 1) any water surface profile increase would be contained within the channel banks (or within existing vertical extensions of the channel banks such as within the design protection grade of existing levees or floodwalls) or flood easements; or
- 2) in urban areas, the water surface profile increase would not exceed 0.1 foot; or
- 3) in rural areas, the water surface profile increase would not exceed 0.5 feet; and
- 4) any increase in average channel velocity would not be beyond the scour velocity of the predominant soil type of the channel; or
- 5) for those cases where the average channel velocity naturally exceeds the scour velocity, the velocity increase would not exceed 10%; or
- 6) scour, erosion and sedimentation would be prevented by the use of riprap or other design measures.

Section 700.70 Special Provisions for Bridges and Culverts

a) General Standards For New Bridges and Culverts

Permits will be granted for new bridges and culverts which would not result in flood damages or potential flood damages outside the project right-of-way due to increases in flood heights or velocities. Absent contrary evidence, this standard will be considered met if, for the worst-case analysis, the application shows that:

- 1) any water surface profile increase would be contained within the channel banks (or within existing vertical extensions of the channel banks such as within the design protection grade of existing levees or floodwalls) or flood easements; or
- 2) in urban areas, the water surface profile increase would not exceed 0.5 feet at the structure, nor 0.1 foot at a point 1000 feet upstream of the structure as determined by the horizontal projection of the increase and the slope of the hydraulic grade line; or
- 3) in rural areas, the water surface profile increase would not exceed 1.0 foot at the structure, nor 0.5 feet at a point 1000 feet upstream of the structure as determined by the horizontal projection of the increase and the slope of the hydraulic grade line; and

DEPARTMENT OF TRANSPORTATION

NOTICE OF PROPOSED RULES

- 4) any increase in average channel velocity would not be beyond the scour velocity of the predominant soil type of the channel; or
 - 5) for those cases where the average channel velocity naturally exceeds the scour velocity, the velocity increase would not exceed 10%; or
 - 6) scour, erosion and sedimentation would be prevented by the use of riprap or other design measures.
- b) General Standards For Bridge and Culvert Reconstruction
- A bridge or culvert reconstruction project which would meet the following provisions will be permissible. A reconstruction project which would not meet these provisions must comply with the general standards for new bridges and culverts.
- 1) The reconstruction (including approach roads) shall be no more restrictive to normal and flood flows than the existing bridge or culvert crossing; and
 - 2) Documentation must be provided that the existing crossing has not caused demonstrable flood damage. In the case of public projects, certification by a District Engineer of the Department's Division of Highways, a County Engineer (if a Professional Engineer), or a Municipal Engineer (if a Professional Engineer) that the existing crossing has not caused demonstrable flood damage will be adequate documentation.

Section 700.80 Statewide Permits

The Department may, by issuance of a statewide permit, grant approval for specific types of activities, for example, minor boat docks and utility crossings, which are determined to have insignificant impact on flood storage, conveyance, or channel stability. Subsequent to the issuance of a statewide permit, no application or further authorization will be required by the Department for activities meeting the terms and conditions of the statewide permit. Statewide permits will be issued only after notice and opportunity for public review and comment.

Section 700.90 Denial of Applications

Applications not meeting the requirements of this Part will be denied. If an application for permit is denied, the Department will submit a letter, based on the administrative record, to the applicant explaining the reason(s) for denial. The application may be resubmitted for consideration if it can be modified to meet the Department's objections as specified in the letter of denial.

DEPARTMENT OF TRANSPORTATION

NOTICE OF PROPOSED RULES

Section 700.100 Violations and Enforcement

- a) When the Department becomes aware of an unauthorized activity or permit violation, it will conduct an investigation to determine the facts regarding the violation and will advise the responsible party what actions are required to comply with state statutes and this Part. When the responsible party fails to perform the specified actions, judicial enforcement will be sought as determined by the Department to be necessary and appropriate.
- b) Investigations may be initiated by the Department on its own, or in response to complaints from affected parties, involving activities undertaken without a permit, or activities not in compliance with the terms and conditions of a permit. Complaints by affected parties shall be in writing and shall contain the name, address and telephone number of the party believed to be responsible, the nature of the alleged violation, the location of the activity, including legal description, and the name of the body of water affected.

Section 700.110 Final Administrative Decision

The approval or denial of applications for permit under this Part shall be considered final administrative decisions and are subject to judicial review in accordance with the Illinois Administrative Review Law, (Ill. Rev. Stat. 1991, ch. 110, par. 3-101, et seq.)

 - 2) An encroachment on any public body of water; or
 - 3) An impairment of any rights, interests or uses of the public in any public body of water or in the natural resources thereof.

 - 3) An analysis of the extent and permanence of the activity's encroachment on the body of water and of any impairment the activity would have on the rights, interests or uses of the public in the body of water and in the natural resources thereof. The analysis shall consider both the activity alone and the combined effects of similar activities which exist and/or could be lawfully undertaken in the locality. The analysis should be expressed in quantitative terms to the fullest extent practicable and should be performed by persons with expertise in such impact analysis.

Section 704.90 Departmental Standards

- a) No activity which would result in an obstruction to, or interference with, the navigability of any public body of water will be permitted.
- b) If it is determined that an activity would result in a long-term or permanent encroachment on a public body of water or impairment of any rights, interests or uses of the public in the body of water or in the natural resources thereof, a permit will be issued only if it is demonstrated that:
 - 1) The project has been designed and will be constructed and operated in a way which will minimize and mitigate to the fullest practicable extent its encroachment on the body of water and its impairment of the rights, interests and uses of the public in the body of water and in the natural resources thereof; and
 - 2) There would be a public benefit, such as the enhancement of

navigation, boating, hunting or other normal and lawful use of the body of water, resulting from the activity which would offset the encroachment and/or impairment impacts.

Section 704.100 Emergency Permit

The Department may issue an emergency permit after receipt of a properly executed application (including an explanation of why the work to be performed is of an emergency nature) if harm to life or loss of property is likely to occur if initiation of the activity is delayed. An applicant for an emergency permit is deemed to have agreed to make modifications, at its own expense, required by the Department, based upon completion of a detailed review and on comments received during the public comment period, to bring the activity into compliance with this Part.

Section 704.110 Statewide and Regional Permits

The Department may, by issuance of a statewide or regional permit, grant approval for specific types of activities, such as aerial utility crossings and recreational boat docking facilities, which are determined to have insignificant impact on public bodies of water. Subsequent to the issuance of a statewide or regional permit, no application or further authorization will be required by the Department for activities meeting the terms and conditions of the permit. Statewide and regional permits will be issued only after notice and opportunity for public review and comment.

Section 704.120 General Permits

The Department may, for the purpose of providing more expeditious processing of permit applications, issue general permits pertaining to specific types of activities, such as boat launching facilities, meeting such conditions as necessary to assure compliance with the purpose and intent of this Part. General permits may be applicable on a statewide basis, or may be restricted to specified public bodies of water. Subsequent to the issuance of a general permit, individual applications meeting still be submitted but authorizations will be granted for activities meeting all of the terms and conditions of the general permit without notice or interagency coordination. General permits will be issued only after notice and opportunity for public review and comment.

Section 704.130 Denial of Applications

Applications not meeting the requirements of this Part will be denied. If an application for permit is denied, the Department will submit a letter, based on the administrative record, to the applicant explaining the reason(s) for denial. The application may be resubmitted for consideration if it can be modified to meet the Department's objections as specified in the letter of denial.

Section 704.140 Violations and Enforcement

- a) When the Department becomes aware of an unauthorized activity or

permit violation, it will conduct an investigation to determine the facts regarding the violation and will advise the responsible party what actions are required to comply with state statutes and this Part. When the responsible party fails to perform the specified actions, judicial enforcement will be sought as determined by the Department to be necessary and appropriate.

- b) Investigations may be initiated by the Department on its own, or in response to complaints from affected parties, involving activities undertaken without a permit, or activities not in compliance with the terms and conditions of a permit. Complaints by affected parties shall be in writing and shall contain the name, address and telephone number of the party believed to be responsible, the nature of the alleged violation, the location of the activity, including legal description, and the name of the body of water affected.
- c) ANY STRUCTURE, FILL, OR DEPOSIT ERRECTED OR MADE IN ANY OF THE PUBLIC BODIES OF WATER OF THIS STATE determined to be IN VIOLATION of the regulation, IS A PURPRESTURE AND MAY BE ABATED AS SUCH AT THE EXPENSE OF THE PERSON, CORPORATION, COMPANY, CITY, MUNICIPALITY, OR OTHER AGENCY RESPONSIBLE THEREFOR (Section 18 of the Act). The Department may require the owner to remove the purpresture within 15 days of receipt of written notice. Any structure, fill, or deposit not so removed may be removed by the Department at the owner's expense.

Section 704.150 Final Administrative Decision

The approval or denial of applications for permit under this Part shall be considered final administrative decisions and are subject to judicial review in accordance with the Illinois Administrative Review Law, (Ill. Rev. Stat. 1991, ch. 110, par. 3-101, et seq.)

- b) The impact on the revenues of the county and the affected taxing districts, as determined by a conjoined input/output econometric forecasting model, of the use of tax increment allocation financing (Section 5(b) of the Act); for example, the expected cost of public infrastructure, incentives, etc., exceed the expected cumulative tax revenue.

This type of documentation consists of the applicant record (i.e., application form, work history, family income statement, eligibility certification checklists), documents verifying elements of the applicant record which pertain to eligibility (for example, tax returns, check stubs, statements from government agencies indicating eligibility for public assistance), and verification of collateral contact (for example, records of SDA employee conversations with third parties). Grantees shall not be required to maintain a work history form for youth enrolled in programs authorized under Section 251 of the Act (29 U.S.C. 1631). The Department shall issue standardized forms and procedures for the collection and retention of each element of the participant record, including a technical assistance guide. - d) Participant Follow-Up Data Collection Requirements - In accordance with the requirements of Sections 106 and 165 of the Act, and the Annual Status Report for Title IIA and Title III programs effective July 1, 1986, the Department shall develop and implement a participant follow-up data collection system. The Economic Dislocation and Worker Adjustment Assistance (EDWAA) Act (Title VI, Subtitle D, of the

DEPARTMENT OF COMMERCE AND COMMUNITY AFFAIRS

NOTICE OF ADOPTED AMENDMENT(S)

Omnibus Trade and Competitiveness Act of 1988) (29 U.S.C. 1651 et seq.) revised Title III of the ~~Job-Training-Partnership-Act~~(JTPA) but also requires that each program (SSA, Governor's Reserve, Secretary's National Reserve) be responsible for participant follow-up. The purpose of this system is to collect and report to the U.S. DOL selected post-program data which will be used by the Secretary of Labor to support performance standards. In order to implement these measures, grantees will be required to collect and report to the Department post-program data items for grantees as specified in this Part. The major elements of this system are as follows:

- 1) Outcome Measures - The post-program data collection requirements are based on the following outcome measures which together describe the labor market experiences of program grantees for the 13 week period after program termination:

- A) The employment rate during the 13th full calendar week after program termination.
B) The average gross weekly earnings of grantees employed during the 13th full calendar week after program termination.
C) The average number of weeks employed during the 13th post-program weeks.
D) The average hourly wage of those employed during the 13th full calendar week after program termination.

2) Post-Program Timing

- A) Post-program data collection shall commence for participants terminating on or after July 1, 1986 (July 1, 1989 for EDWAA grantees).

B) Follow-up data shall be collected for the 13th full calendar week following termination from the program.

C) Post-program data shall be collected for grantees whose 13th post-program week ends during the program year.

D) Follow-up interviews of grantees shall commence during the first week of October 1986 (first week of October 1989 for EDWAA grantees).

E) Data collection is limited to a four week period from the 14th to the 17th week following termination. Follow-up may occur during the 18th week only when the grantee is located before the end of the 17th week.

3) Interview Group Selection

A) Title IIA grantees must collect follow-up data for two groups: adults and adult welfare recipients.

B) Title III and EDWAA grantees must collect follow-up data for all grantees.

C) The size of each of the above groups to be interviewed shall be determined by the number of planned grantees from each group during the period for which post-program data will be collected.

D) If the number of planned grantees in any of the interview groups is equal to or less than 137, each grantee from that

DEPARTMENT OF COMMERCE AND COMMUNITY AFFAIRS

NOTICE OF ADOPTED AMENDMENT(S)

group must be included in the data collection effort. If the number of planned terminees exceeds 137, data on a sample of terminees may be collected.

- E) If sampling is used as a basis for determining which terminees will be interviewed, the sample must be as large as the minimum sample sizes specified by the U.S. DOL Employment and Training Administration in federal regulations issued May 16, 1990 (55 FR 20342). Samples must be drawn independently for each interview group and must be random.

- F) If samples are used, an individual sample is required for each SSA, while statewide samples are required for statewide and national reserve reports.

4) Methods for Terminee Contact

- A) The follow-up data must be gathered by administering a questionnaire over the telephone or in person. Mail questionnaires may be used only in those cases where the terminee does not have a telephone or cannot be reached by telephone.

- B) Contact must be made with the terminee directly.

SUBPART H: MEDICAL ASSISTANCE - NO GRANT

Section 120.384 Spend-down of Assets (MANG)

a) Determination of Assets

- 1) For individuals residing in the community the Department determines the amount of non-exempt assets using the verified amount on the date of decision on the application for medical assistance. The date of verification may be prior to the date of decision. Money considered as income for a month is not considered as an asset for that same month. If income for a month is added to a bank account that month, the Department will subtract the amount of income from the bank balance to determine the asset level. Any income remaining the following month(s) is considered as an asset.
- 2) The amount of non-exempt assets verified during the application process is used on the date of decision. If medical eligibility includes a backdated month(s), for the backdated month(s), the Department will consider the amount of assets available to apply to the cost of medical care. The Department will not determine the value of assets for a backdated month(s) of eligibility. However, the amount of the excess assets verified during the application process is used to determine spend-down status in each backdated month of eligibility.
- 3) Once the excess asset has been used to meet spend-down, whether or not the excess amount has actually been reduced, it is no longer considered. However, at reapplication/ redetermination, the Department will consider any excess non-exempt assets remaining as currently available.

Section 120.384 (continued)

b) Community Cases (MANG)

To determine the spend-down obligation for MANG clients in the community, the Department will compare monthly countable income to the appropriate MANG standard and add any non-exempt assets in excess of the appropriate asset disregard to non-exempt monthly income in excess of the appropriate MANG Standard.

1) Regular MANG - Community Residents

When an individual residing in the community, has countable monthly income of not more than 99 cents over the appropriate MANG Standard and has non-exempt excess assets of not more than 99 cents over the appropriate asset disregard, the case is referred to as a Regular MANG case. Payment for covered services is made for each month eligibility exists.

2) Spend-down MANG

- A) When an individual resides in the community and has countable monthly income of at least \$1.00 over the MANG Standard and/or non-exempt assets of at least \$1.00 in excess of the asset disregard for the appropriate size household, the case is referred to as a community spend-down case. The spend-down amount is the sum of the amount of income in excess of the MANG Standard plus non-exempt assets in excess of the appropriate asset disregard. The Department will disregard any excess income and/or asset amounts that are not at least \$1.00 over the appropriate standard or disregard.

- B) The transfer of asset policy set forth in Section 120.385 still applies. Once the client has been determined to have a resource spend-down because of excess non-exempt assets, the spend-down cannot be eliminated by a non-allowable transfer made to qualify for or increase the need for medical assistance.

- C) If the individual presents verification that the excess amount is no longer available and the transfer of assets is allowable according to Section 120.385, the Department will make the appropriate changes the month following the month the assets were transferred. If spend-down has been met, the policy set forth in Section 120.385 regarding transfer of assets does not apply. The client may dispose of the

Section 120.384(b)(2)(C) (continued)

asset as he/she wishes as it has been applied to a met spend-down.

- D) Individuals enrolled in spend-down are not eligible for payment of covered medical services until spend-down is met. Spend-down is met by presenting allowable medical bills or receipts to the Department that equal the amount of the individual's excess countable income and/or non-exempt excess assets. Excess assets do not have to be reduced prior to the issuance of a medical card.

c) Group Care Cases

To determine the spend-down obligation for MANG clients in group care, the Department will compare monthly countable income and non-exempt assets in excess of the appropriate asset disregard to the cost of long term care at the private pay rate or the Department rate, whichever is greater. When an individual has non-exempt excess assets, the excess amount is applied to the monthly long term care charges after the monthly countable income has been applied.

1) Regular Group Care

When an individual in group care has countable monthly income plus non-exempt assets in excess of the applicable asset disregard of not more than 99 cents over the private pay rate or the Department rate, whichever is greater, the case is referred to as a Regular Group Care case. If monthly countable income plus excess non-exempt assets are less than the long term care charges at the Department rate, the Department will pay the difference.

2) Group Care Spend-down

- A) When an individual in group care has countable monthly income plus non-exempt assets in excess of the applicable asset disregard of at least \$1.00 over the cost of long term care at the private pay rate or the Department rate, whichever is greater, the case is referred to as a Group Care Spend-down case. The spend-down amount is the sum of the monthly countable income plus non-exempt assets over the applicable asset disregard.

- B) The transfer of asset policy set forth in Section 120.385 still applies. Once the client has been determined to have a resource spend-down because of excess non-exempt assets,

the spend-down cannot be eliminated by a non-allowable transfer made to qualify for or increase the need for medical assistance.

- C) If the individual presents verification that the excess amount is no longer available and the transfer of assets is allowable according to Section 120.385, the Department will make the appropriate changes the month following the month the assets were transferred. If spend-down has been met, the policy set forth in Section 120.385 regarding transfer of assets does not apply. The client may dispose of the asset as he/she wishes as it has been applied to a met spend-down.
- D) Individuals enrolled in spend-down are not eligible for payment of covered medical services until spend-down is met. Spend-down is met by presenting allowable medical bills or receipts to the Department that equal the amount of the individual's excess countable income and/or non-exempt assets. Excess assets do not have to be reduced prior to the issuance of a medical card.

15) Summary and Purpose of Amendments:

Section 140.2: This rulemaking provides for entering into contracts with Health Maintenance Organizations (HMOs) which allow for a lock-in of a client to the HMO for up to six months. It provides procedures to be followed by the Department to notify clients of their disenrollment rights, and procedures to be followed by clients to disenroll. It also provides for entering into contracts with HMOs which allow a client to disenroll at any time. This rulemaking will benefit clients by increasing the level of continuity of medical care being provided. This managed care initiative will improve client services while meeting cost containment needs of the Department.

Section 140.15: This rulemaking prohibits the Department from recouping money owed by a long term care resident, when the incorrect payment is due to an error in the Department's initial determination of the resident's medical eligibility.

Sections 140.16 and 140.17: Changes are being adopted to clarify the standards which are being used for the termination and suspension of medical vendors. Changes being made in Section 140.16(a) are intended to indicate that the violations specified in this Section are used as the basis for the termination or non-renewal of provider agreements as well as for the termination of eligibility. Under Sections 140.18 and 140.19, termination of eligibility carries harsher penalties than the termination or non-renewal of the provider agreement. Since each sanction is based on the violations listed in Section 140.16, this change expresses the

DEPARTMENT OF PUBLIC AID

NOTICE OF ADOPTED AMENDMENTS

Department's policy more clearly and reflects the imposition of a less severe sanction. The change in Section 140.16(a)(6) is also intended to update the rule to reflect current Department policy. This provision has been interpreted to mean that the services for which a provider has billed the Department must be provided by that provider. The changes will make this policy more explicit in the rules.

The changes in Section 140.17 are intended to place a one year time limit on suspensions and to clarify the standards which are utilized when a suspension is imposed. The one year time limit is required by Section 12-4.25(D) of the Illinois Public Aid Code (Ill. Rev. Stat., ch. 23, par. 12-4.25(D)), but had not been included in the rules. The previous wording of Section 140.17(a) unnecessarily limited the availability of suspension. Cases in which the action is based exclusively on the loss of license are evaluated under subsection (a), while cases in which the loss of license is only one of the grounds are evaluated under the more general criteria in subsection (b). These adopted changes eliminate these discrepancies and require the consideration of suspension under the same general criteria for all cases.

Section 140.413: This rulemaking is in accordance with mandates of the Omnibus Budget Reconciliation Act of 1990 (OBRA '90) which pertain to physician services. Section 4752 of OBRA '90, "Improvement in Quality of Physician Services", requires that Medicaid reimbursement be made to a physician providing services to a Medicaid eligible child under 21 years old or a pregnant woman only if the physician meets certain qualifications. The Department previously revised Section 140.413, requiring that physicians performing prenatal and post partum care retain hospital delivery privileges or maintain a written referral arrangement with another physician who retains such privileges. These current revisions reflect the OBRA '90 mandates relating to services provided by physicians to children under age 21.

Section 140.421: These amendments revise the current limitation on replacement dentures from every three years to every five years.

NOTICE OF ADOPTED AMENDMENTS

Section 140.2(a) (continued)

- participating providers for necessary medical services, specified in Section 140.3 through 140.7 for:
- 1) persons eligible for financial assistance under the Department's Aid to the Aged, Blind or Disabled-State Supplemental Payment (AABD-SSP) and Aid to Families with Dependent Children (AFDC) programs (Medicaid - MAG);
 - 2) persons who would be eligible for financial assistance but who have resources in excess of the Department's eligibility standards who have incurred medical expenses greater than the difference between their income and the Department's standards (Medicaid - MANG);
 - 3) persons receiving financial assistance under the Department's General Assistance (GA) program, either State Transitional Assistance or State Family and Children Assistance (GA-Medical);
 - 4) individuals under age 18 who do not qualify for AFDC/AFDC-MANG and infants under age one (1) year (see Section 140.7);
 - 5) pregnant women who would not be eligible for AFDC/AFDC-MANG if the child were born and who do not qualify as mandatory categorically needy (see Section 140.9);
 - 6) persons who are eligible for Title IV-E adoption assistance/foster care assistance from another State and who are living in Illinois.
- b) "Necessary medical care" is that which is generally recognized as standard medical care required because of disease, disability, infirmity or impairment.
- c) The Department may impose prior approval requirements, as specified by rule, to determine whether the medical care is necessary and eligible for payment from the Department in individual situations. Such requirements shall be based on recommendations of technical and professional staff and advisory committees.
- d) When recipients are entitled to Medicare benefits, the Department shall assume responsibility for their deductible and coinsurance obligations, unless the recipients have income and/or resources available to meet these needs. The total payment to a provider from both Medicare and the Department shall not exceed either the amount

Section 140.2(d) (continued)

that Medicare determines to be a reasonable charge or the Department standard for the services provided, whichever is applicable.

- e) The Department shall pay for services and items not allowed by Medicare only if they are provided in accordance with Department policy for recipients not entitled to Medicare benefits.
- f) The Department may contract with qualified practitioners, hospitals and all other dispensers of medical services for the provision and reimbursement of any and all medical care or services as specified in the contract on a prepaid capitation basis (i.e., payment of a fixed amount per enrollee made in advance of the service); volume purchase basis (i.e., purchase of a volume of goods or services for a price specified in the contract); ambulatory visit basis (i.e., one comprehensive payment for each visit regardless of the services provided during that visit) or per discharge basis (i.e., one comprehensive payment per discharge regardless of the services provided during the stay). Such contracts shall be based either on formally solicited competitive bid proposals or individually negotiated rates with providers willing to enter into special contractual arrangements with the State.

- g) The Department may require that recipients of medical assistance under any of the Department's programs exercise their freedom of choice by choosing to receive medical care under the traditional fee for service system or through a prepaid capitation plan or under one of the other alternative contractual arrangements described in subsection (f) of this Section. The categories of recipients who may choose or be assigned to an alternative plan will be specified in the contract. Recipients required to make such a choice will be notified in writing by the Department. If a recipient does not choose to exercise his/her freedom of choice, the Department may assign that recipient to a prepaid plan. Under such a plan, recipients would obtain certain medical services or supplies from a single source or limited source. Recipients enrolled in a prepaid plan may disenroll. If a recipient is assigned to a prepaid plan he/she will be permitted to revoke that assignment at any time. The Department will notify recipients in writing if they are assigned to a prepaid plan. Recipients enrolled in or assigned to a prepaid plan will receive written notification advising them of the services which they will receive from the plan. Covered services not provided by the plan will be reimbursed by the Department on a fee for service basis. Recipients will receive a medical eligibility card which will apply to such services. The recipient shall notify the contractor-

and execute a disenrollment form if he/she wants to disenroll or revoke the assignment.

- h) The Department may enter into contracts for the provision of medical care on a prepaid capitation basis from a Health Maintenance Organization (HMO) whereby the recipient who chooses to receive medical care through an HMO must stay in the HMO for a certain period of time, not to exceed six months (the enrollment period). Upon written notice, the recipient may choose to disenroll from such an HMO at any time within the first month of each enrollment period. The Department will send the recipient a notice at least 30 days prior to the end of the enrollment period which gives the recipient a specified period of time in which to inform the Department if the recipient does not wish to re-enroll in the HMO for a new enrollment period. The recipient may then disenroll at the end of the enrollment period only if the recipient responds to the notice and indicates in writing a choice to disenroll. Failure to respond to the notice will result in automatic re-enrollment for a new enrollment period. Recipients shall also be allowed to disenroll at any time for cause.
- i) The Department may enter into contracts for the provision of medical care on a prepaid capitation basis from a Health Maintenance Organization whereby the recipient who chooses to receive medical care through an HMO may choose to disenroll at any time, upon written notice.

- b) The Department shall not recoup from any long term care provider any amounts subsequently determined to be owed by a client due to an error in the initial determination of medical eligibility.

147.205 Amendment August 28, 1992 (16 Ill. Reg. 13215)

- 15) Summary and Purpose of Adopted Amendments:

Section 147.100: This Section has been amended for clarification. The words "functional and" have been added to subsection (b) in order to address both the functional and service needs during the inspection of Care process. A sentence has been added to subsection (f) stating that information not presented at the exit conference will not be considered. This coincides with the requirement in subsection (g).

Sections 147.300 through 147.350: Revisions to these Sections are being adopted primarily to provide for terminology changes. These terminology changes are being made to reflect language which is used in federal regulations regarding services which are provided for persons with mental illness (MI) and persons with developmental disabilities (DD). References to "specialized services" for persons with MI are being changed to the term "psychiatric rehabilitation services." References to "active treatment" for persons with DD are being changed to "specialized services." The terminology change regarding "psychiatric rehabilitation services" emphasizes that the services being provided for persons with MI are nursing facility level services. Other revisions are being made to delete outdated material and to correct typographical errors.

Section 147.100 Reconsiderations

- a) A facility may request a reconsideration of the resident assessment conducted by the Inspection of Care (IOC) team if the facility

DEPARTMENT OF PUBLIC AID

NOTICE OF ADOPTED AMENDMENTS

Section 147.100(a) (continued)

believes the assessment does not accurately reflect the level of need of its residents. The facility will be given the IOC assessments in batches of 20% as the case manager completes them for the purpose of allowing the facility time to review the assessment prior to the Exit Conference. Differences between the facility and the IOC team regarding level of need of the residents are to be addressed using a three-step approach:

- 1) exit conference negotiation between the facility and IOC team;
- 2) central office arbitration; and
- 3) first level review.

b) At the exit conference the facility must state the functional and service needs that it wishes to dispute. The facility is responsible for providing supporting data to the IOC team in an effort to reconcile the differences. When the differences are not reconciled through negotiation, the IOC team nurse will provide the facility with appeal/arbitration request forms on which the facility must record the level of service it believes accurately reflects the residents' needs. The nurse will automatically forward the appeal/arbitration request forms and supportive documentation provided by the facility to the central office for arbitration.

c) Arbitration is contingent upon exit conference negotiation and the submittal of the completed appeal arbitration request forms to the IOC team.

d) First level review is contingent upon the previous steps having been completed.

e) Final resolution of the reconsideration process shall be within 100 days of the date of the exit conference which constitutes the first step of the process.

f) Arbitration shall be completed by nurse and/or physician arbitrators, as indicated. Any information that was not presented at the exit conference will not be considered. Results of the arbitration will be communicated in writing to the facility within forty-five days after the exit conference. If the arbitration review does not resolve differences concerning disputed items to the facility's satisfaction, the facility must request, in writing, a first level review within ten days of receipt of the central office arbitration decision. Otherwise the reconsideration process will be completed without advancing to first level review.

DEPARTMENT OF PUBLIC AID

NOTICE OF ADOPTED AMENDMENTS

Section 147.100 (continued)

g) First level review will be conducted by the Chief of the Bureau of Long Term Care or designee. Any information that was not presented at the exit conference and/or the arbitration will not be considered. The Bureau Chief or designee will reverse the arbitrator's determination only if it is demonstrated that relevant evidence was not considered or finds the arbitrator's determination against the weight of the evidence. Results of the administrator's review and reasons, therefore, will be mailed to the facility within 45 days of receipt of the facility's request for first level review.

h) The Department reserves the right to examine the validity of all assessments. A reassessment may be conducted and will serve as the basis for the facility's program reimbursement for the rate period in question. The facility may request a review of this reassessment according to the specifications above. Such an examination may be triggered by but not limited to assessments resulting in a rate increase or decrease of ten or more percent.

Section 147.300 Determination of Program (Specialized Psychiatric Rehabilitation Services) Costs

a) The Department reimburses residential facilities for program costs associated with the delivery of specialized psychiatric rehabilitation services to individuals with mental illness, according to information obtained during each facility's most recent Inspection of Care (IOC) review conducted by Department staff. The category of facilities which is affected by Sections 147.300 through 147.350 is nursing facilities (NF) with at least one individual with mental illness determined to require specialized psychiatric rehabilitation services. IOC review assessments of 100% of the Medicaid residents are conducted in these facilities every twelve (12) months. Total program reimbursement determination is based upon IOC review criteria specified in Sections 147.5 through 147.350.

Agency Note: Omnibus Budget Reconciliation Act of 1987 (P.L. 100-203) requirements prohibit the admission of an individual who is mentally ill into nursing facilities on or after January 1, 1989, unless the state mental health authority has determined that this level of service is required. However, if an individual does not require nursing facility services, but does require active treatment specialized services, and the individual has resided in the facility for thirty (30) continuous months or longer, and the resident chooses to remain in the facility, specialized services must be provided, by-

the facility and reimbursement will be made by the Department as determined by IOC assessments.

b) Reimbursement for services under Sections 147.300 through 147.350 does not include services to maintain generally independent individuals who are able to function with little supervision or in the absence of a continuous specialized psychiatric rehabilitation services program.

(Source: Amended at 16 Ill. Reg. 17332, effective November 6, 1992)

Section 147.305 Specialized Psychiatric Rehabilitation Service Requirements for Individuals With Mental Illness in Residential Facilities

a) Facilities serving individuals with mental illness must provide a continuous specialized psychiatric rehabilitation service program for each individual as required by Section 1919(a)(7)(C)(i) (b)(4) of the Social Security Act (42 U.S.C. 1396r). This program is directed toward:

1) The acquisition of behaviors and skills necessary to reach the highest practical functional level of self-determination and independence in the areas of self-maintenance, social functioning, community living activities, and work related skills; and

2) The reduction of residual psychiatric symptoms with the prevention or deceleration of regression or loss of current optimal functional status.

b) The specialized psychiatric rehabilitation service program for each individual must be delivered through the implementation of a Comprehensive Program Plan (CPP) consisting of interventions and services which are designed to meet the individual's needs with continuity across all of the environments in which the individual lives. The CPP is a plan where specialized psychiatric rehabilitation services programming and interventions are consistently implemented throughout the day, regardless of the individual's whereabouts.

c) The CPP must be developed by an Interdisciplinary Team (IDT) that includes the individual, and the professions, disciplines or service areas that are relevant to identifying and prioritizing the

- d) The facility must have qualified professionals available to develop, implement and monitor the various programs designed to address each individual's identified needs.

- 1) Qualified professional staff must be licensed, certified, or registered, as applicable, to provide professional services by the State of Illinois.

- A) A doctor of medicine or osteopathy is licensed pursuant to the Medical Practices Act of 1987 (Ill. Rev. Stat. 1989, ch. 111, par. 4400-1 et seq.).

- B) A registered nurse is licensed pursuant to the Illinois Nursing Act of 1987 (Ill. Rev. Stat. 1989, ch. 111, par. 3501 et seq.).

- F) A rehabilitation counselor shall be certified by the Commission on Rehabilitation Counselors Certification.

- e) Each individual's specialized psychiatric rehabilitation service program must be integrated, coordinated and monitored by a Psychiatric Rehabilitation Services Coordinator (PRSC), identified as an individual who meets one of the following criteria and in addition has a minimum of one year of experience working directly with persons with mental illness:

- 1) A doctor of medicine or osteopathy;

Section 147.310 Inspection of Care (IOC) Review Criteria for the Evaluation of Specialized Psychiatric Rehabilitation Services in Residential Facilities for Individuals with Mental Illness

- a) Medicaid certified facilities serving individuals with mental illness are required to address the needs of each individual through a continuous specialized psychiatric rehabilitation service program. The Interdisciplinary Team (IDT) is a key component in a facility's ability to develop an appropriate program of specialized psychiatric rehabilitation services for each individual in residence. The responsibility for the composition and quality of the IDT rests solely with the licensed provider. Further, a facility is fully responsible for ensuring the delivery of all services as set forth in Sections 147.25 through 147.205, which are deemed necessary by the IDT in the specialized psychiatric rehabilitation services program for each individual.

- b) The Inspection of Care review criteria, are used to assess facility performance in meeting the variable needs of individuals with mental illness through individualized programs of specialized psychiatric rehabilitation services. The criteria identified in these sections constitute the essential elements of specialized psychiatric rehabilitation services.
